Dear Folks handling Docket No. 98N - 1038,

I have just been made aware that your organization is moving to remove the labeling from irradiated foods - making it therefore impossible for someone to know if the food they buy is irradiated. I find this repulsive. I am letting you know that I am clearly against irradiating foods and then **hiding this from the public** by not labeling them "treated with radiation", "treated by irradiation", the "RADURA" symbol or any labeling which properly identifies this treatment.

Sincerely,

Kim Tunella

98N 1038
